

TEST SCENARIO ID	REFERENCE	TEST NAME	TEST CONDITION	NUMBER OF TEST CASES
FH-RG-01	Web Application	Registration	To verify the working of Registration functionality by providing "Valid Credentials"	FH-RG-TC-001
			To verify the working of Registration functionality by providing "Valid Credentials and Invalid Name"	FH-RG-TC-002
			To verify the working of Registration functionality by providing "Valid Credentials and Not Providing Name"	FH-RG-TC-003
			To verify the working of Registration functionality by providing "Valid Credentials and Invalid Phone Number"	FH-RG-TC-004
			To verify the working of Registration functionality by providing "Valid Credentials and Not Providing Phone Number"	FH-RG-TC-005
			To verify the working of Registration functionality by providing "Valid Credentials and Invalid Password"	FH-RG-TC-006
			To verify the working of Registration functionality by providing "Valid Credentials and Not Providing Password"	FH-RG-TC-007
			To verify the working of Registration functionality by providing "Valid Credentials and Different Confirm Password"	FH-RG-TC-008
			To verify the working of Registration functionality by providing "Valid Credentials and Not Providing Confirm Password"	FH-RG-TC-009
			To verify the working of Registration functionality "Without clicking on Terms & condition checkbox"	FH-RG-TC-010
			To verify that user is able to "create account" by "using valid credentials and pressing Enter key on keyboard"	FH-RG-TC-011
			To verify if "user receives Phone verification Code after clicking on create account button"	FH-RG-TC-012
			To verify that "Login" hyperlink is working.	FH-RG-TC-013
			To verify if the "user is allow to change the country code"	FH-RG-TC-014
			To verify that the "Flag is changing according to selected country code"	FH-RG-TC-015
			To verify that the "Country code notification is displaying correct country name"	FH-RG-TC-016
			To verify by "choosing a country code and entering valid number of another country"	FH-RG-TC-017
			To verify that the "Password is visible by clicking on the eye button"	FH-RG-TC-018
			To verify that the "Password is encrypted without clicking on the eye button"	FH-RG-TC-019
			To verify that the "Password can copy & paste from other page to registration page"	FH-RG-TC-020
			To verify that the "Password that was written cannot be copied and pasted on the another page"	FH-RG-TC-021
			To verify that "user is not allow to make any changes by client side scripting"	FH-RG-TC-022
			To verify that the "Phone verification Page" is displaying after clicking on "Create account" button	FH-RG-TC-023
			To verify the "Verification Code" functionality by providing "Valid Credentials and Wrong OTP"	FH-RG-TC-024
			To verify the "Verification Code" functionality by "Not Providing the OTP"	FH-RG-TC-025
			To verify the "Verification Code" functionality by providing "Valid Credentials and Expired OTP"	FH-RG-TC-026
			To verify the "expiry time of OTP"	FH-RG-TC-027
			To verify that the "system is generating new OTP after the expiry time only"	FH-RG-TC-028
			To verify the working of registration Functionality By "Using Previous OTP before expire time"	FH-RG-TC-029
			To verify the "limit for generating the OTP for single user in one Time"	FH-RG-TC-030
			To verify that the "user is being temporarily blocked by the system by doing several unsuccessful OTP attempts"	FH-RG-TC-031
			To verify that OTP is "Case Sensitive"	FH-RG-TC-032
			To verify the working of "Resend Code Functionality"	FH-RG-TC-033
			To verify that user is able to "Verify OTP" by providing "Valid credentials and pressing Enter key on keyboard"	FH-RG-TC-034
			To verify the working of registration process by using "same credentials and different browser"	FH-RG-TC-035
			To verify the working of registration process by using "same credentials and different Devices"	FH-RG-TC-036
			To verify the working of registration process by using "same platform and multiple users at same time"	FH-RG-TC-037
			To verify the working of registration functionality by "using existing user details"	FH-RG-TC-038
			To verify that "Registration page displays the right error messages for invalid inputs"	FH-RG-TC-039
			To verify the "registration is still done after using the browser Back Button just after completing the registration process"	FH-RG-TC-040
			To verify the "registration is still done by closing internet server just after completing the registration process"	FH-RG-TC-041
			To verify that "registration page clears all fields after successful registration"	FH-RG-TC-042
			To verify the "all given field suggestions"	FH-RG-TC-043

			To verify that the "placeholder colour" is changing "after providing invalid data"	FH-RG-TC-044
			To verify that the "placeholder colour" is changing "after not providing mandatory data"	FH-RG-TC-045
			To verify the "Register Page UI"	FH-RG-TC-046
			To verify that the "Registration's user interface is responsive,adjusting to different screen resolutions and devices"	FH-RG-TC-047
			To verify the "spelling and grammer" of Registration page	FH-RG-TC-048
FH-LOGIN-02	Web Application	Log In / Sign In	To verify the working of Login functionality by providing "Valid Credentials"	FH-LOGIN-TC-049
			To verify the working of Login functionality by providing "Valid Credentials and Invalid Phone Number"	FH-LOGIN-TC-050
			To verify the working of Login functionality by providing "Valid Credentials and Not Providing Phone Number"	FH-LOGIN-TC-051
			To verify the working of Login functionality by providing "Valid Credentials and Invalid Password"	FH-LOGIN-TC-052
			To verify the working of Login functionality by providing "Valid Credentials and Not Providing Password"	FH-LOGIN-TC-053
			To verify if the "user is allow to change the country code"	FH-LOGIN-TC-054
			To verify that the "Flag is changing according to selected country code"	FH-LOGIN-TC-055
			To verify that the "Country code notification is displaying correct country name"	FH-LOGIN-TC-056
			To verify by "choosing a country code and entering valid number of another country"	FH-LOGIN-TC-057
			To verify that the "Password is visible by clicking on the eye button"	FH-LOGIN-TC-058
			To verify that the "Password is encrypted without clicking on the eye button"	FH-LOGIN-TC-059
			To verify that the "Password can copy paste from other page"	FH-LOGIN-TC-060
			To verify that the "Password that was written cannot be copied and pasted on the another page"	FH-LOGIN-TC-061
			To verify that the "User's login credentials are stored for future" by choosing the "Remember Me" feature	FH-LOGIN-TC-062
			To verify that "User's login credentials are not saved for later use" by not choosing the "Remember Me" feature	FH-LOGIN-TC-063
			To verify that the "Forgot Password "hyperlink is working.	FH-LOGIN-TC-064
			To verify that user is able to "Login" by "using valid credentials and pressing Enter key on keyboard"	FH-LOGIN-TC-065
			To verify that the "Register Now" hyperlink is working.	FH-LOGIN-TC-066
			To verify that "Login page displays the right error messages for invalid inputs"	FH-LOGIN-TC-067
			To verify the working of Login process by using "same Login credentials and different browser"	FH-LOGIN-TC-068
			To verify the working of Login process by using "same Login credentials and different Devices"	FH-LOGIN-TC-069
			To verify the Login process by using "same Login credentials at same time on different browser"	FH-LOGIN-TC-070
			To verify that "Same Logged account is displaying in same Browser's New tab"	FH-LOGIN-TC-071
			To verify the working of Login process by using "same platform and multiple users at same time"	FH-LOGIN-TC-072
			To verify that "user is not allow to make any changes by client side scripting"	FH-LOGIN-TC-073
			To verify that "Login is still done after using the browser Back Button just after completing the Login process"	FH-LOGIN-TC-074
			To verify that "user is allow to login with new password"	FH-LOGIN-TC-075
			To verify that the "user is being temporarily blocked by the system by doing 4 unsuccessful Login attempts"	FH-LOGIN-TC-076
			To verify that "Login session is expired after using logout functionality only"	FH-LOGIN-TC-077
			To verify that "Login is still done by closing internet server just after completing the Login process"	FH-LOGIN-TC-078
			To verify the "all given field suggestions"	FH-LOGIN-TC-079
			To verify that the "placeholder colour" is changing "after providing invalid data"	FH-LOGIN-TC-080
			To verify that the "placeholder colour" is changing "after not providing mandatory data"	FH-LOGIN-TC-081
			To verify the "Login Page UI"	FH-LOGIN-TC-082
			To verify that the "Login's user interface is responsive,adjusting to different screen resolutions and devices"	FH-LOGIN-TC-083
			To verify the "spelling and grammer" of Login page	FH-LOGIN-TC-084
			To verify the working of Forgot Password functionality by providing "Valid Credentials"	FH-FGPW-TC-085
			To verify the working of Forgot Password functionality by providing "Invalid phone number"	FH-FGPW-TC-086
			To verify the working of Forgot Password functionality by "Not providing phone number"	FH-FGPW-TC-087
			To verify that "Send Password Reset Link" is working.	FH-FGPW-TC-088

FH-FGPW-03	Web Application	Forgot Password	To verify the working of "Reset Password Link" functionality by providing "Valid credentials and Invalid Phone Number"	FH-FGPW-TC-089
			To verify the working of "Reset Password Link" functionality by providing "Valid credentials and Not providing Number"	FH-FGPW-TC-090
			To verify the working of "Reset Password Link" functionality by providing "Valid credentials and Invalid Code"	FH-FGPW-TC-091
			To verify the working of "Reset Password Link" functionality by providing "Valid credentials and Not providing Code"	FH-FGPW-TC-092
			To verify the working of "Reset Password Link" functionality by providing "Valid Credentials and Invalid Password"	FH-FGPW-TC-093
			To verify the working of "Reset Password Link" functionality by providing "Valid Credentials and Not Providing Password"	FH-FGPW-TC-094
			To verify the working of "Reset Password Link" functionality by providing "Valid Credentials and Different Confirm Password"	FH-FGPW-TC-095
			To verify the working of "Reset Password Link" functionality by providing "Valid Credentials and Not Providing Confirm Password"	FH-FGPW-TC-096
			To verify that the "Password is visible by clicking on the eye button"	FH-FGPW-TC-097
			To verify that the "Password is encrypted without clicking on the eye button"	FH-FGPW-TC-098
			To verify that the "Password can copy paste from other page"	FH-FGPW-TC-099
			To verify that the "Password that was written cannot be copied and pasted on the another page"	FH-FGPW-TC-100
			To verify that user is able to "Reset Password" by "using valid credentials and pressing Enter key on keyboard"	FH-FGPW-TC-101
			To verify that "user is not allow to make any changes by client side scripting"	FH-FGPW-TC-102
			To verify that "Back to Login" is working	FH-FGPW-TC-103
			To verify the working of Forgot password process by using "same credentials and different browser"	FH-FGPW-TC-104
			To verify the working of Forgot password process by using "same credentials and different Devices"	FH-FGPW-TC-105
			To verify the "all given field suggestions"	FH-FGPW-TC-106
			To verify that the "placeholder colour" is changing "after providing invalid data"	FH-FGPW-TC-107
			To verify that the "placeholder colour" is changing "after not providing mandatory data"	FH-FGPW-TC-108
			To verify the "Forgot Password Page UI"	FH-FGPW-TC-109
			To verify that the "Forgot Password's user interface is responsive,adjusting to different screen resolutions and devices"	FH-FGPW-TC-110
			To verify the "spelling and grammer" of Forgot Password Page.	FH-FGPW-TC-111
			To verify that "My Account" feature displays "after completing Login Process successfully"	FH-MYACC-TC-112
			To verify if the "User's name & mobile number is displaying above dashboard"	FH-MYACC-TC-113
			To verify that "number of Product added into the cart" are displaying in the "dashboard"	FH-MYACC-TC-114
			To verify that "number of Product added into the wishlist" are displaying in "dashboard"	FH-MYACC-TC-115
			To verify that "total numbers of ordered products" are displaying in "dashboard"	FH-MYACC-TC-116
			To verify that "default shipping address" is displaying in "dashboard"	FH-MYACC-TC-117
			To verify that "purchase history feature" is displaying the "purchase history page"	FH-MYACC-TC-118
			To verify that "purchase history page" is displaying "Correct details of purchased order"	FH-MYACC-TC-119
			To verify that "invoice is displaying in downloads"	FH-MYACC-TC-120
			To verify that "User is able to download the invoice"	FH-MYACC-TC-121
			To verify that "refund request is updated in sent refund request page"	FH-MYACC-TC-122
			To verify that "User can check the refund status"	FH-MYACC-TC-123
			To verify that "refund request status is uploading according to process"	FH-MYACC-TC-124
			To verify the "correct details about product" are displaying in "refund request page"	FH-MYACC-TC-125
			To verify that the "right added products are displaying in the wishlist"	FH-MYACC-TC-126
			To verify the "correct details about product" are displaying in "wishlist page"	FH-MYACC-TC-127
			To verify that user is able to "remove product from the wishlist page"	FH-MYACC-TC-128
			To verify that user is able to "add the product into cart from wishlist page"	FH-MYACC-TC-129
			To verify that "user is able access Product Page Link" from "wishlist page."	FH-MYACC-TC-130
			To verify that the "right added products are displaying" in the "compare page"	FH-MYACC-TC-131
			To verify that "User is able to see the comparison List of products"	FH-MYACC-TC-132
			To verify the "correct details about products" are displaying in "compare page"	FH-MYACC-TC-133
			To verify that "User is able to add the product into cart" from "compare page"	FH-MYACC-TC-134

FH-MYACC-04	Web Applicaton	My Account	To verify that "Reset Compare List" button is working.	FH-MYACC-TC-135
			To verify if "User is allow to send text messages" in "Conversations Feature"	FH-MYACC-TC-136
			To verify if "User is able to send emojis and GIFs " in "Conversation Feature"	FH-MYACC-TC-137
			To verify that "User can receive and view new messages"	FH-MYACC-TC-138
			To verify that "User is allow to get notification for unread messages"	FH-MYACC-TC-139
			To verify that "User is able to delete the conversations"	FH-MYACC-TC-140
			To verify that user is able to see the "Right amount of Wallet Balance in My Wallet page"	FH-MYACC-TC-141
			To verify that user is able to "see Recharge Wallet Page" after clicking on "Recharge wallet"	FH-MYACC-TC-142
			To verify the working of "Recharge wallet" functionality by providing "Valid credentials"	FH-MYACC-TC-143
			To verify the "Limit of Amount that user can put into Amount field"	FH-MYACC-TC-144
			To verify that "Recharge wallet page" displays the "right error messages for invalid inputs"	FH-MYACC-TC-145
			To verify the "all given field suggestions" of Recharge Wallet page	FH-MYACC-TC-146
			To verify that "Cancel Icon" is working	FH-MYACC-TC-147
			To verify that "My Wallet Page" is displaying "Wallet Recharge History Section"	FH-MYACC-TC-148
			To verify that "Wallet Recharge History" section is displaying "Correct details of Recharged Wallet"	FH-MYACC-TC-149
			To verify that "Create a Ticket page" is displaying after clicking on "Create a Ticket "	FH-MYACC-TC-150
			To verify the working of "Create a Ticket" functionality by providing "Valid credentials"	FH-MYACC-TC-151
			To verify the working of "Create a Ticket" functionality by providing "Valid credentials and Invalid Subject"	FH-MYACC-TC-152
			To verify the working of "Create a Ticket" functionality by providing "Valid credentials and Not providing Subject"	FH-MYACC-TC-153
			To verify the working of "Create a Ticket" functionality by providing "Valid credentials and Invalid Detailed description"	FH-MYACC-TC-154
			To verify the working of "Create a Ticket" functionality by providing "Valid credentials and Not providing Detailed description"	FH-MYACC-TC-155
			To verify the working of "Create a Ticket" functionality by providing "Valid credentials and choosing Invalid Photo"	FH-MYACC-TC-156
			To verify the working of "Create a Ticket" functionality by providing "Valid credentials and Not choosing Photo"	FH-MYACC-TC-157
			To verify the "all given field suggestions" of Create a Ticket page	FH-MYACC-TC-158
			To verify that "Cancel button" of "Create a Ticket page is Working"	FH-MYACC-TC-159
			To verify that "Ticket is sent on User's registered details only"	FH-MYACC-TC-160
			To verify that "Message is displaying after sending ticket successfully"	FH-MYACC-TC-161
			To verify that "Correct details of Created Tickets are displaying" in "Tickets Section"	FH-MYACC-TC-162
			To verify that "User can check Status of Tickets"	FH-MYACC-TC-163
			To verify that "View Details hyperlink should be working"	FH-MYACC-TC-164
			To verify that "Browse/Choose File" Link is displaying "Upload New option"	FH-MYACC-TC-165
			To verify that "User is able to Browse any photo from system"	FH-MYACC-TC-166
			To verify that "User is able to successfully Upload Photo after browsing it from system"	FH-MYACC-TC-167
			To verify that "User is able to Copy Paste Image in Upload New option"	FH-MYACC-TC-168
			To verify that "User is able to Drop file in Upload New Option"	FH-MYACC-TC-169
			To verify that "Browse/Choose File" Link is displaying "Select File" option	FH-MYACC-TC-170
			To verify that "Correct Uploaded Files" are displaying in "Select File option"	FH-MYACC-TC-171
			To verify that "user is able to select Sort by options"	FH-MYACC-TC-172
			To verify that "Selected Only" Button is working	FH-MYACC-TC-173
			To verify that "Search your files" bar is working	FH-MYACC-TC-174
			To verify that "Add files button" is working	FH-MYACC-TC-175
			To verify that "Cancel Icon" is working	FH-MYACC-TC-176
			To verify that the "right number of selected files are displaying" in "Select file" option	FH-MYACC-TC-177
			To verify that "Previous button" is working	FH-MYACC-TC-178
			To verify that "Next Button" is working	FH-MYACC-TC-179
			To verify that "Clear link" is working	FH-MYACC-TC-180
			To verify that "Basic Info of registered user is displaying by default in Manage Profile page"	FH-MYACC-TC-181

			To verify the working of "Update Profile" functionality by providing "Valid credentials"	FH-MYACC-TC-182
			To verify the working of "Update Profile" functionality by providing "Valid credentials and Invalid Name"	FH-MYACC-TC-183
			To verify the working of "Update Profile" functionality by providing "Valid credentials and Not providing Name"	FH-MYACC-TC-184
			To verify the working of "Update Profile" functionality by providing "Valid credentials and Invalid phone"	FH-MYACC-TC-185
			To verify the working of "Update Profile" functionality by providing "Valid credentials and Not providing phone"	FH-MYACC-TC-186
			To verify the working of "Update Profile" functionality by providing "Valid credentials and Invalid Email"	FH-MYACC-TC-187
			To verify the working of "Update Profile" functionality by providing "Valid credentials and Not providing Email"	FH-MYACC-TC-188
			To verify the working of "Update Profile" functionality by providing "Valid credentials and Not providing photo"	FH-MYACC-TC-189
			To verify the working of "Update Profile" functionality by providing "Valid Credentials and Invalid New Password"	FH-MYACC-TC-190
			To verify the working of "Update Profile" functionality by providing "Valid Credentials and Not Providing New Password"	FH-MYACC-TC-191
			To verify the working of "Update Profile" functionality by providing "Valid Credentials and Different Confirm Password"	FH-MYACC-TC-192
			To verify that the "Password is visible by clicking on the eye button"	FH-MYACC-TC-193
			To verify that the "Password is encrypted without clicking on the eye button"	FH-MYACC-TC-194
			To verify the working of "Update Profile" functionality by providing "Valid Basic Info and Not Changing the Password"	FH-MYACC-TC-195
			To verify the working of "Update Profile" functionality by "Not providing Basic Info and Changing the Password"	FH-MYACC-TC-196
			To verify that "Message is displaying after updating profile successfully"	FH-MYACC-TC-197
			To verify that "New Address page" is displaying after clicking on "Add New Address"	FH-MYACC-TC-198
			To verify the working of "New Address" functionality by providing "valid credentials"	FH-MYACC-TC-199
			To verify the working of "New Address" functionality by providing "valid credentials and Invalid Address"	FH-MYACC-TC-200
			To verify the working of "New Address" functionality by providing "valid credentials and Not providing Address"	FH-MYACC-TC-201
			To verify the working of "New Address" functionality by providing "valid credentials and Invalid Postal Code"	FH-MYACC-TC-202
			To verify the working of "New Address" functionality by providing "valid credentials and Not providing Postal Code"	FH-MYACC-TC-203
			To verify the working of "New Address" functionality by providing "valid credentials and Invalid Phone Number"	FH-MYACC-TC-204
			To verify the working of "New Address" functionality by providing "valid credentials and Not providing Phone Number"	FH-MYACC-TC-205
			To verify that "User is allow to select Country"	FH-MYACC-TC-206
			To verify that "User is allow to select State"	FH-MYACC-TC-207
			To verify that "User is allow to select City"	FH-MYACC-TC-208
			To verify that "Cancel Icon is working"	FH-MYACC-TC-209
			To verify that "User is allow to Edit the address"	FH-MYACC-TC-210
			To verify that "User is able to make the address default"	FH-MYACC-TC-211
			To verify that "User is able to delete the adress"	FH-MYACC-TC-212
			To verify that "Message is displaying after saving address successfully"	FH-MYACC-TC-213
			To verify that "Change your Email Section" is displaying in "Manage Profile Page"	FH-MYACC-TC-214
			To verify that "User is not allow to Update Email by Providing Invalid Email"	FH-MYACC-TC-215
			To verify that "User is able to verify Email"	FH-MYACC-TC-216
			To verify that "Email Verification Message is sent to User's registered Email ID only"	FH-MYACC-TC-217
			To verify the "all given field suggestions in Manage Profile Page"	FH-MYACC-TC-218
			To verify the "My Account Page UI"	FH-MYACC-TC-219
			To verify that the "My Account user interface is responsive,adjusting to different screen resolutions and devices"	FH-MYACC-TC-220
			To verify the "Spelling and grammer" of My Account page	FH-MYACC-TC-221
			To verify that the "Search Bar" is displaying on "Top Header of Home Page"	FH-SCH-TC-222
			To verify that "Search Bar" is displaying "Placeholder Text"	FH-SCH-TC-223
			To verify the working of "Search" functionality by providing "Valid Credentials"	FH-SCH-TC-224
			To verify the working of "Search" functionality by providing "Invalid credentials"	FH-SCH-TC-225
			To verify the working of "Search" functionality by "Not providing any input"	FH-SCH-TC-226
			To verify that user is able to "Search" by "using valid credentials and pressing Enter key on keyboard"	FH-SCH-TC-227

FH-SCH-05	Web Application	Search	To verify that "Search Bar displays the right error message for invalid inputs"	FH-SCH-TC-228
			To verify that "user is not allow to make any changes by client side scripting"	FH-SCH-TC-229
			To verify that "User is able to see auto suggestions" on search bar	FH-SCH-TC-230
			To verify that User is able to navigate "Correct Product Page according to search results"	FH-SCH-TC-231
			To verify that the "Search Bar's user interface is responsive,adjusting to different screen resolutions and devices"	FH-SCH-TC-232
			To verify the "Spelling and grammer" of "Placeholder Text"	FH-SCH-TC-233
			To verify that the "Correct Search Icon is displaying"	FH-SCH-TC-234
FH-CART-06	Web Application	Cart	To verify that "Cart Button" is displaying on "Home Page at right side of Header"	FH-CART-TC-235
			To verify that "Right number of added products into Cart" are displaying "On Cart Icon"	FH-CART-TC-236
			To verify that "Cart Icon is updating with the item count"	FH-CART-TC-237
			To verify that User is able to see "Correct product details in Cart Preview" after "adding products into cart"	FH-CART-TC-238
			To verify that User is able to see "Correct Price details in Cart Preview"	FH-CART-TC-239
			To verify that User is allow to "Remove the Product from Cart Preview"	FH-CART-TC-240
			To verify that "Message is displaying after removing product from Cart Preview"	FH-CART-TC-241
			To verify that "user is able access Product Page" from "Cart Preview"	FH-CART-TC-242
			To verify that User is able to see "My Cart Page" after clicking on "View Cart button"	FH-CART-TC-243
			To verify that User is able to see "My Cart Page" after clicking on "Proceed button"	FH-CART-TC-244
			To verify that User is able to see "Correct product details in My Cart Page"	FH-CART-TC-245
			To verify that User is able to see "Correct Price details in My Cart Page "	FH-CART-TC-246
			To verify that User is allow to "Increase the quantity of product in My Cart Page"	FH-CART-TC-247
			To verify that User is allow to "Decrease the quantity of product in My Cart Page"	FH-CART-TC-248
			To verify that User is allow to "Remove the Product in My Cart Page"	FH-CART-TC-249
			To verify that User is able to "Select the quantity of product as per Stock availability"	FH-CART-TC-250
			To verify that "Total price calculation after increasing the quantity of product"	FH-CART-TC-251
			To verify that "Total price calculation after decreasing the quantity of product"	FH-CART-TC-252
			To verify that "Return to Shop" button is working	FH-CART-TC-253
			To verify that "Continue to Shipping" button is working	FH-CART-TC-254
			To verify that "user is not allow to make any changes by client side scripting"	FH-CART-TC-255
			To verify the "UI of My Cart Page"	FH-CART-TC-256
			To verify the "UI of Cart Preview"	FH-CART-TC-257
			To verify that the "Cart's user interface is responsive,adjusting to different screen resolutions and devices"	FH-CART-TC-258
			To verify the "spelling and grammer" of My Cart Page	FH-CART-TC-259
FH-PCP-07	Web Application	Product Category Page	To verify that "User is able to see Product Category List"	FH-PCP-TC-260
			To verify that "Price Range Slider is working"	FH-PCP-TC-261
			To verify that "Product list is displaying according to selected price range"	FH-PCP-TC-262
			To verify that "User is able to see Filter by Options"	FH-PCP-TC-263
			To verify that "Product list is displaying according to selected Filter"	FH-PCP-TC-264
			To verify that "Shop Now button is working which is displaying in Amazing deal and Special offer"	FH-PCP-TC-265
			To verify that "Best Selling Products of The Month list is displaying similar category of product "	FH-PCP-TC-266
			To verify that "Top Selling Products of This Week list is displaying similar category of product "	FH-PCP-TC-267
			To verify that "User is able to access Budget Savers To Explore List"	FH-PCP-TC-268
			To verify that "Products are displaying in Shop By Price according to selected filter"	FH-PCP-TC-269
			To verify that User can "access the Product Page Link from Product Category Page"	FH-PCP-TC-270
			To verify that "All Product Sliders are working"	FH-PCP-TC-271
			To verify that "Read More button is working"	FH-PCP-TC-272

			To verify the "UI of Product Category Page"	FH-PCP-TC-273
